Dear Students, Parents, and Guardians,

I hope this finds all of you doing well and staying healthy. It is also my hope that you are finding time to connect with your family in new and positive ways.

As you are aware, Governor Pritzker has mandated that schools continue to remain closed until April 30, 2020. Our staff has been preparing for this possibility and is already begun implementing Remote Learning.

The Maryville Jen School Remote Learning Plan will be posted on our website, www.jenschool.org, beginning this weekend. Please take a moment to read over and become familiar with the expectations for your child.

We will also have on our website a list of resources for parents and students during this challenging time. We will continue to update this list as more resources become available.

The school will be closed during the shutdown, however, a member of the administrative team will be in the building to provide support. All staff can be reached via email or voice mail.

During the past couple of weeks, I have seen just how amazing our students, faculty, and parents are. It has been awe-inspiring to watch everyone come together to support each other during this time of uncertainty. The Jen School community is a strong and compassionate group that will continue to find ways to stay connected and continue to grow.

Please check-in and let us know how you are doing and if there is anything we can do.

We will post updates on our website and classroom teachers will post information on their classroom pages in Google Class and/or Blackbaud.

Take Care and Be Safe,

Ann M. Craig
Director of Educational Services/Principal
